TC 1700

Sir:

Prior to examination of the patent Application identified above, please amend the claims as follows:

IN THE CLAIMS:

Please cancel claims 3 and 5 without prejudice or disclaimer.

Please enter the following amended claim:

1. (Amended) A method of desalinating or purifying saltwater or otherwise polluted water-to-be-treated via hydrate fractionation, said method comprising:

introducing said water-to-be-treated into a hydrate fractionation column;

injecting a hydrate-forming gas or mixture of gases into said water-to-be-treated under temperature and pressure conditions conducive to the formation of gas hydrate, whereupon said gas or mixture of gases reacts with said water-to-be-treated at a point of hydrate formation to yield gas hydrate and residual fluid while liberating heat of hydrate formation which tends to warm said residual fluid; and

allowing said gas hydrate to rise through said hydrate fractionation column and to enter a hydrate dissociation region in which said gas hydrate dissociates and releases fresh water and said hydrate-forming gas or mixture of gasses;
